(Explanation of consolidated financial
statements for Q4/2025 and cumulative figures
up to December 31, 2025)

Hanoi, January 30, 2026

Dear : - State Securities Commission
- Hanoi Stock Exchange

In accordance with Article 14 – Chapter III – Circular 96/2020/TT-BTC issued on November 16, 2020 by the Ministry of Finance on guiding the disclosure of information on the Securities Market, Vietnam Electronics and Informatics Corporation (Viettronics), ticker symbol VEC, traded on the UPCOM exchange, has prepared its consolidated financial report for the fourth quarter of 2025 and submitted it to the relevant authorities. Viettronics now explains the fluctuations in the indicators as required by law as follows:

1. Regarding profit fluctuation figures:

According to the consolidated financial report for Q4/2025, the net profit after tax (NPAT) increased by more than 10% compared to the same period in 2024:

- **For Q4/2025:** Net profit after tax increased by **VND 136,164 million** compared to Q4/2024, representing an increase of over 10%.
- **For the cumulative figures up to December 31, 2025:** Business results will shift from loss to profit. Specifically, cumulative net profit after tax for 2025 will increase by **VND 149,893 million** compared to the same period in 2024 (Cumulative net profit after tax for 2024: VND 26,989 million).

2. Causes of fluctuations:

The aforementioned profit difference mainly stems from the Corporation recognizing profits from financial activities through the divestment of its associate company in Q4/2025. This income arose as part of the Corporation's planned portfolio restructuring.

Vietnam Electronics and Informatics Corporation (VNIET) provides further clarification on the fluctuations in some key indicators in the consolidated financial statements for Q4/2025 and cumulative figures up to December 31, 2025, compared to Q4/2024 and cumulative figures up to December 31, 2024, to provide additional information for relevant agencies, shareholders, and investors.

Best regards.

Recipient:

- As above.
- Save VT, TCKT .
